Tim
We thoroughly enjoying meeting you too.
Afraid Jennifer is very suspicious after our failed meeting with James in late January and you could witness first hand the level of her distress over us being robbed of being able to serve the Lord with our gifts & abilities. Then plain on a level with losing our son in 1991.
I'm equally distressed but for some reason I've felt a lot calmer in recent months. I look forward to the unfolding journey we are all on. I'll work hard to try to rebuild Jennifer's confidence as we proceed.
I'll have the chronology to you shortly
Blessings
Barry
