your ongoing allegations. These contacts with various other volunteers and staff are distressing to us as it undermines the process that we have endeavoured to follow from the beginning, it puts these people in a very difficult and uncomfortable position, it reveals a significant lack of trust by yourselves in the leadership at First Alliance Church, and is creating disunity and overall harm to the greater Body of Christ.

We are also aware of various documents written by you where there has been a significant attack of the character and questioning of motives and ethics of various people in leadership at First Alliance Church. This is especially disturbing as it serves to create disunity in God's church, it is not following biblical teaching, nor is it God-honouring. Your continued service in other ministries at First Alliance Church would appear to be at odds with your distrust of the leadership.

Barry and Jennifer, you have maintained all along in this process that you would be open to correction if need be. We trust that you continue to feel that way. These behaviours are very harmful to the Body of Christ, and we feel that they will continue to allow the pain in your lives to persist, which is ultimately what we would want resolved. Thus, we are asking you to cease from these behaviours immediately. Unfortunately, if these behaviours do continue, consequences will follow. These consequences will consist of you being removed from any leadership and volunteer positions at First Alliance Church, and ultimately to being asked to discontinue worshiping with us at First Alliance Church.

You can be assured that our hope and prayer continues to be reconciliation in this situation and that we do not desire to act in this way.

Respectfully,

Dave Orr

Dave Orr – Chairman First Alliance Church Board of Elders
